To the Legislative Assembly of Tasmania

The petition of the residents of Tasmania brings to the attention of the House the hidden industry behind the pet shop window. Puppy factories farm puppies and sell them to pet shops and trade them online. The dogs are often kept in cramped filthy conditions for their entire lives and their behavioral needs are never met. The dogs not only suffer physically but are psychologically traumatized due to confinement and constant breeding, when they are no longer able to breed they are killed and replaced.

The petitioners therefore request that the Legislative Assembly of Tasmania support Oscar's Law and abolish puppy factories and ban the sale of factory farmed companion animals from pet shops and online trading websites.
